

# VECTOR PC WING

## GENERAL

Vector PC Wing brings unique portable lighting control of the powerful and flexible Vector family, by combining sophisticated features of the Vector platform with unmatched simplicity and size.

Vector PC Wing used with the Vector software delivers cutting-edge performance, advanced functionality and enhanced programming facilities in a richly compact design. Vector PC Wing is also enriched with a standard networking connection enabling easy connectivity to the wide range of Vector line accessories.

Vector PC Wing is compatible with all Vector family lighting consoles and can be used as a standalone with PC or as a tracking backup console.
