## Bug Fixes

### 1. SMPTE

- 1.1 There were errors registering a manually inserted SMPTE time. This is now fixed. Thank you Patrick at Crystal, France.
- 1.2 Sometimes Events that had already operated at their designated SMPTE time were randomly triggered again. This does not happen anymore. Thank you Patrick at Crystal, France.

---

## Known Bugs

- 1. Move fades do not consistently work well.
- 2. The system does not support 720 kb diskettes.
